

Mitsubishi Chemical Group - Advanced Materials NV – Product Line Manager Recycling Solutions

Tasks and responsibilities

As Product Line Manager Recycling Solutions, you will play an active role in shaping the future of the circular economy. You will develop innovative recycling and upcycling solutions, ensure a sustainable and economically viable supply of raw materials, and drive the expansion of circular material flows. Working closely with an international team, you will make a significant contribution to profitable growth and the achievement of our sustainability goals.

What you will do:

- Ensure the optimal balance between a sustainable supply of raw materials and the requirements of our production operations;
- Continuously develop and expand our recycling activities together with a strong network of internal and external partners;
- Increase the efficient use of valuable resources and create both economic and environmental value for our customers, partners, and our company;
- Identify new value creation opportunities through innovative recycling and upcycling solutions;
- Bring cross-functional teams together, establish common goals, and drive their successful implementation.

Profile

- A completed Master's degree in Business Administration, Industrial Engineering, Mechanical Engineering, Chemistry, Materials Science, or a comparable field;
- Professional experience working in cross-functional and international management environments;
- Proven experience in building and managing supplier and partner networks and developing sustainable value chains;
- Knowledge and experience in recycling, the circular economy, material flows, or sustainable raw material sourcing;
- Excellent Dutch and English language skills, both written and spoken, as well as experience working with international stakeholders.

Offer

Our company culture Our culture is rooted in five core values: Integrity, Respect, Bravery, Collaboration and Ownership - we call it Our Way. These values guide how we work, innovate, and grow together.

We believe in the power of diverse perspectives, backgrounds, and experiences. KAITEKI, our philosophy for the wellbeing of people, society, and the planet, strengthens our commitment to creating an inclusive environment where every individual feels valued, respected, and empowered to contribute.
